### OPEN COMMUNICATION

Dear Baroness Vere,

Captain David Whitby Ex Air UK/KLM UK, just one example of countless other members of the public over the past 14 years, has shared your attached letter of 26<sup>th</sup> May 2019 which you wrote to his MP, Fiona Bruce about aerotoxic poisoning. We've disidentified Captain Whitby and his address from the letter, but he was first in touch with the Aerotoxic Association in around 2010.

You may not be aware that Jet Blue Captain Andrew K Myers was caused both acute and chronic ill health by an oil 'fume event' on 21<sup>st</sup> January 2017 and his US public Court case was won without Appeal on 31<sup>st</sup> July 2020. [https://48b4ed48-471d-4786-b5ed-b7d9563b03f8.filesusr.com/ugd/3e3e4e\\_fd0106505d4545abb91596f6d7b3a5ae.pdf](https://48b4ed48-471d-4786-b5ed-b7d9563b03f8.filesusr.com/ugd/3e3e4e_fd0106505d4545abb91596f6d7b3a5ae.pdf)

I would be grateful if you could please confirm at your earliest convenience to my MP, Clive Lewis of Norwich South in an open and transparent manner that this US ruling is the 'positive evidence' the UK Government has been looking for as the elusive 'missing link'?

If the Aerotoxic Association Ltd. Charity, which was founded in 2007, can help you or others with your understanding of this public health matter, we are at your service.

We look forward to your timely response.

Many thanks.

Yours sincerely,

John Hoyte

Chairman Aerotoxic Association  
Former BAe 146 Training Captain
